! WARNING

If this gate is to be used with children...

- Children have died or been seriously injured when gates are not securely installed. **ALWAYS** install and use gates as directed using all required parts.
- **STOP** using when a child can climb over or dislodge the gate.
- Install only with locking/latching mechanism securely engaged on side away from child.
- To prevent falls, **NEVER** use at top of stairs.
- **NEVER** use to keep child away from pool.
- This product will not necessarily prevent all accidents.
- **NEVER** leave child unattended.
- Periodically check all fasteners to be sure they are tight and secure, stop using gate if any parts are missing or become damaged.
- Do not attempt to use this gate in temperatures less than 40 degrees F (4°C) or damage may result.
- This product intended for use with children from 6 months through 24 months of age.

A. Preassembled gate

To ensure safe operation, additional or replacement parts should be obtained only from North States or its authorized distributors. Contact information appears on the cover of these instructions. Replacement parts can be ordered at <http://northstatesind.com/main/shop-parts/>
Any damage to property during installation of your gate is the sole responsibility of the end user.

INSTALLATION AND OPERATING INSTRUCTIONS

No Tools Required

STEP 1

Place the gate on floor and expand it so that all four bumpers are in contact with the sides of opening.

NOTE: If a child is present, be sure to place the gate so the handle is on the side of the gate that will be away from the child.

STEP 2

Rotate locking handle and insert handle tab into slot that provides enough tension to secure gate.

STEP 3

To release locking handle, twist handle outward and pull gently away from gate.

Clean with water and non-abrasive cleaner. Rinse with water and allow to air dry.
