ASSEMBLY INSTRUCTIONS

1. Attach the Locking Door Hinges to the Carrier Bottom and Carrier Top **exactly as shown**. Be sure to attach the hinges correctly, as removal is difficult once they are installed.

2. Attach the Storage Compartment Lid on the 27" carrier. (These are pre-attached on the 32" and 36" carriers.)

3. Set the Carrier Bottom on a flat surface and attach the Assembly Buckles. The Yellow Buckle Hinges will snap into place on the spaces provided on the Carrier Bottom; keep the Assembly Buckle and Yellow Buckle Hinge in a "V" formation while attaching for easiest application.

4. Place the Carrier Top on the Carrier Bottom. Before locking the Buckles, attach the Door by placing the bottom door prong into the hole on the left side of the Carrier Bottom. Lift up on the Carrier Top to insert the top door prong into the Carrier Top. Lower the Carrier Top so it rests on the Carrier Bottom, then secure them together by locking the Assembly Buckles.

Traditional Right-to-Left door installation. See CARRIER OPTIONS on Page 3 for alternatives.

NOTE: The assembled carrier has multiple tie-down locations in the corners for use with plastic ties. This is recommended for air travel.

5. To Operate the Door, squeeze the tabs to disengage the spring-loaded prongs, then swing the door open. Push the orange tab to lock.

CARRIER OPTIONS:

You have the option to remove the door, creating an open, den-like environment for your dog to enter and exit the carrier as he pleases. To do so, simply twist the Locking Door Hinges forward to release the door and remove it.

You also have the option to attach the door with the locking mechanism on the left, allowing the door to open left-to-right rather than right-to-left. While facing the front of the assembled carrier, twist the Locking Door Hinges toward you and re-install the door with the locking mechanism on the left. To secure the door in the carrier frame, twist the Locking Door Hinges inward toward the center of the carrier and into the locked position.

TO ATTACH OPTIONAL CASTERS:

****Sold Separately.** Visit the Skudo page on midwesthomes4pets.com for information on where to buy.

Turn the carrier upside down and push the tabs on the carrier feet. This will release the caster mounts. Slide the casters into the caster mounts, then re-attach the caster mounts to the Carrier Bottom.
