

Thank you for choosing Tiger Tough™ for your pet! Our products are manufactured of high quality materials and feature natural sisal fibers. Sisal textiles are durable, economical and biodegradable. They are also an excellent surface for scratching! The Tiger Tough™ Play Stairs Playground features:

- Multiple climbing platforms
- Sisal post coverings for scratching
- Cat-IQ™ Busy Box with play balls
- Tower cat bed with removable cover
- Pet "bed" platform for lounging
- Wide base for greater stability
- Jingle bell ball toy

Assembly Instructions

1. Product must be assembled **vertically beginning with the base and building up**. Do not assemble lying down as damage may occur to unit when righting and hardware may not be secure for use.

2. Assemble product on a flat, stable surface using the tools provided.

Care Instructions

- Periodically inspect unit and tighten screws as needed.
- Wipe down wood surfaces with damp, clean cloth as needed.
- Spot clean fibers only with gentle detergent diluted with water.
- Fabric covers can be handwashed as needed. Use mild detergent; hang dry.

Hints & Tips

- Because it is a natural fiber, it is normal for sisal to discolor over time.
- Exposure to direct sunlight or moist conditions may damage the unit.
- For greater stability, place the playground unit near a wall.
- Never let children or larger animals play on or climb the playground unit. This is extremely unsafe and may lead to damage or harm.
- Not recommended for outdoor use.
- Keep tools and instructions for future use and reference.
