**CAROUSEL™**

**To Order Visit [www.kittywalk.com](http://www.kittywalk.com) or Call Toll Free (877) 548-8905**

**1**

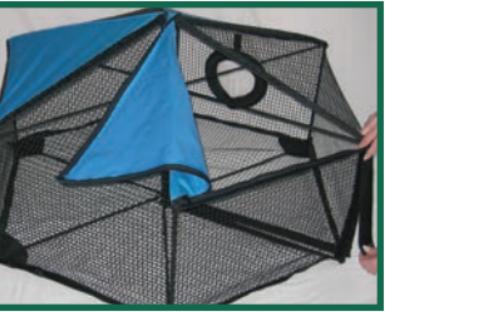

Take the unit out of the travel bag and set it on the ground.

Open unit like fan

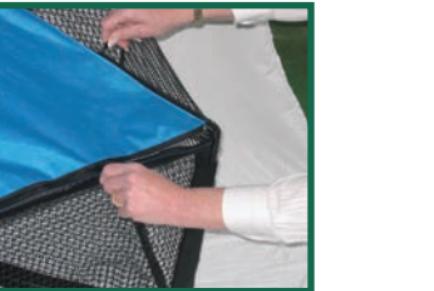

This unit contains 4 stakes, 2 stabilizer assemblies, 2 flag set assemblies and one connecting sleeve. (4) turning clasps not pictured.

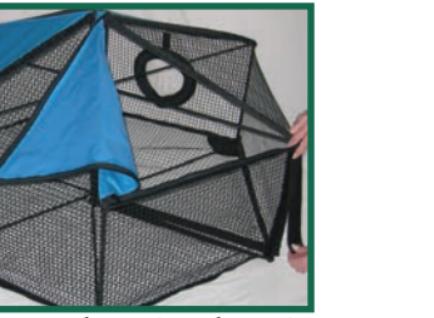

Take each end and fold around to complete a circle as shown.

**To Order Visit [www.kittyclaw.com](http://www.kittyclaw.com) or Call Toll Free (877) 548-8905**

**2**

To securely close the Carousel, zip both zippers so they meet at the bottom and hook them onto the zipper lock. Then secure the bottom with two turning clasps and secure the side with two turning clasps.

Take the shorter velcro strip and press it along the side on the unit where the two ends meet.

Add flag at top as shown. For added security the stakes may be pushed through the loops at the bottom of each of the 6 corners into the ground.

**To Order Visit [www.kittyclaw.com](http://www.kittyclaw.com) or Call Toll Free (877) 548-8905**

**3**

If you purchase the Ferris Wheel and want to connect the two units together, first remove the round plastic window of each unit and save.

**To Order Visit [www.kittyclaw.com](http://www.kittyclaw.com) or Call Toll Free (877) 548-8905**

The Connecting Sleeve has been added for use when the Ferris Wheel (picture below) is added to the Carousel.

Then simply attach the **connecting sleeve** at each end using the zippers as you would zip a jacket together. Please turn the page to see what the Carousel and Ferris Wheel look like when connected.
