WARNINGS & CAUTIONS

PLEASE READ AND FOLLOW ALL WARNINGS AND INSTRUCTIONS TO AVOID PET INJURY OR PROPERTY DAMAGES.

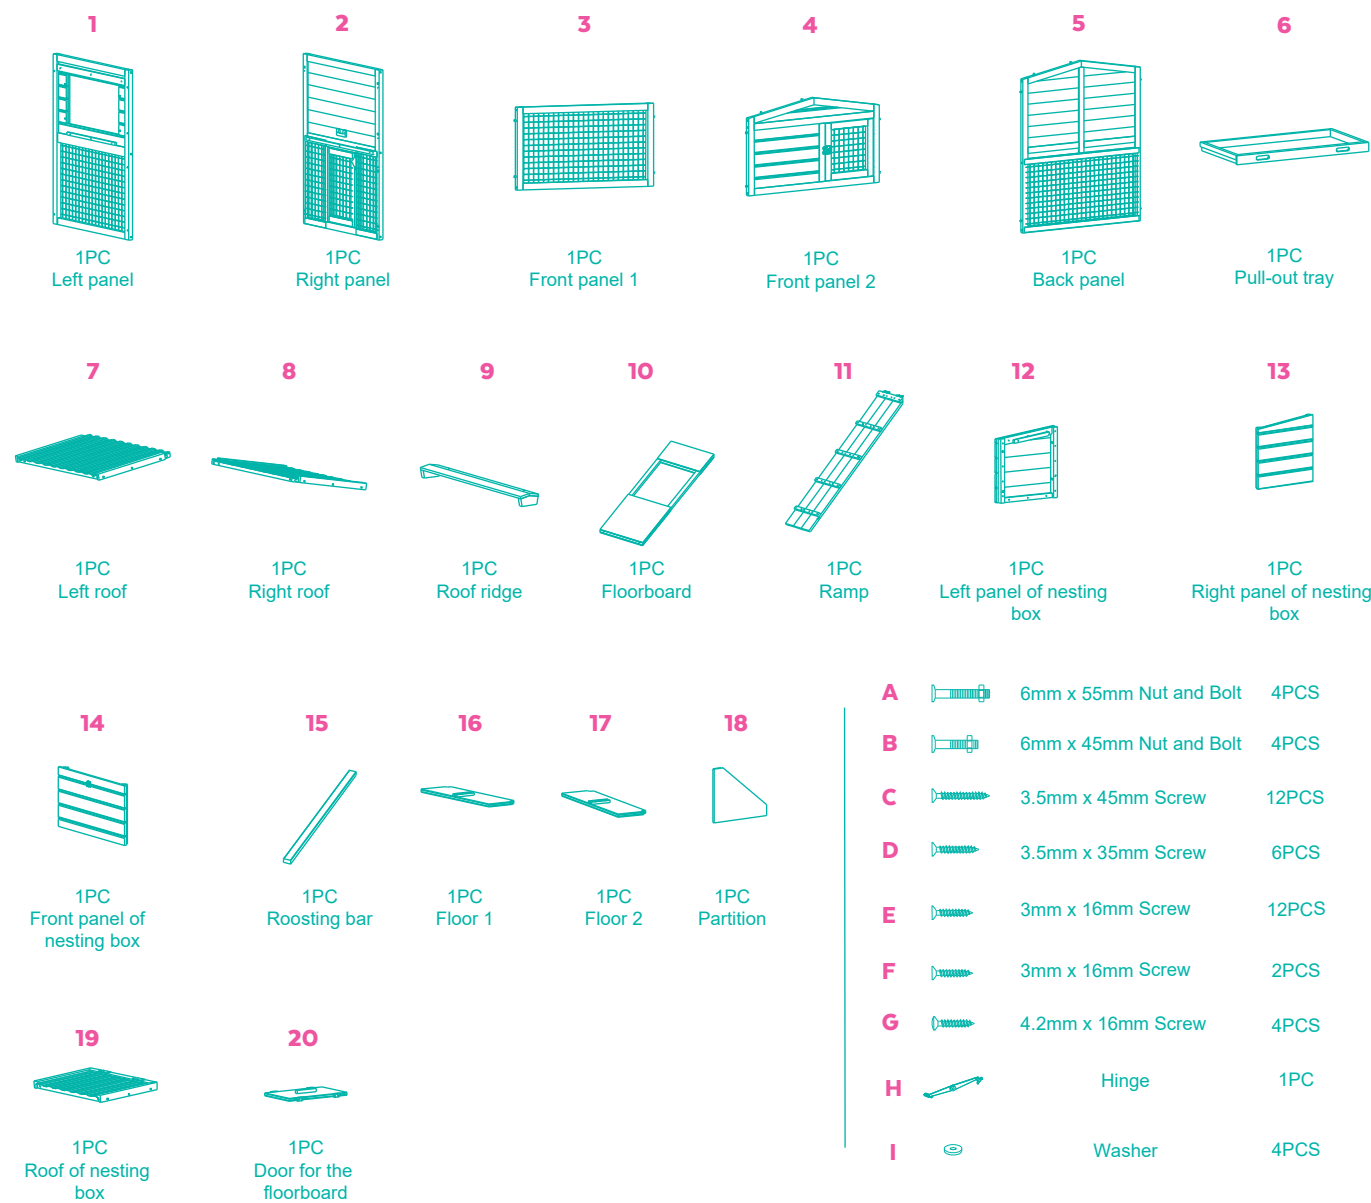

- Follow the instructions carefully and make sure you've completed each step.
- Keep away from heat sources and open flames.
- Do not sit on, climb on or shake the product!
- This wooden product is suitable for providing temporary shelter for your pets in an outdoor environment.
- This product has been treated with a harmless water-based wood preservative solution, which provides basic protection against the elements.
- This product should be re-treated at least once a year with a similar harmless solution to protect the wood.
- Choose a location that is leveled and dry, as well as being as sheltered from the weather as possible.
- This product is not for human use. Please, never allow children to play in or on the house. For chicken use only.

GEAR UP

You'll need a Philips head screwdriver (not included) to complete the assembly.

COMPONENTS

Prior to assembly, be sure to identify and sort all components shown below.

ASSEMBLY INSTRUCTIONS

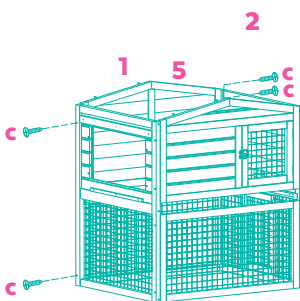

Tip: This item has predrilled holes to make set up easier for your chicken's home.

STEP 1

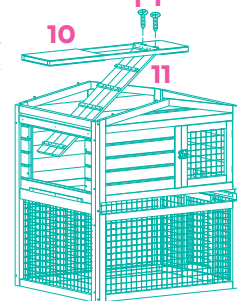

Connect Panel (3), (4) and (1) using Screw (C). Connect Panel (3), (4) and (2) using Screw (C).

STEP 2

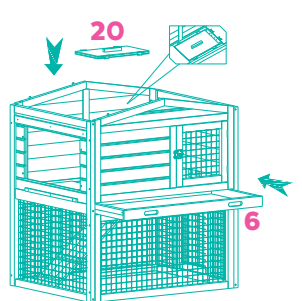

Connect Panel (5) and Panel (1) using Screw (C). Connect Panel (5) and Panel (2) using Screw (C).

STEP 3

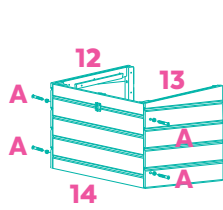

Attach the Ramp (11) to the Floorboard (10) using Screw (F). Then insert it into the house.

STEP 4

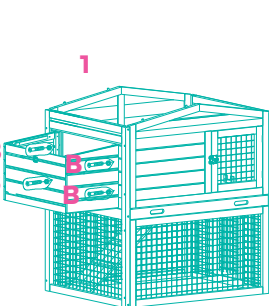

Insert the Door (20) to the Floorboard (10). Insert the Pull-out Tray (6).

STEP 5

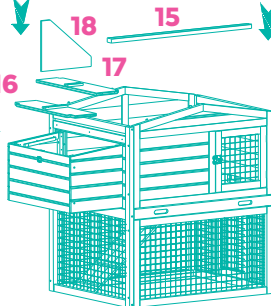

Assemble the nesting box. Connect Panel (12) to Panel (14) using Nut and Bolt (A). Connect Panel (13) to Panel (14) using Nut and Bolt (A). For usage of Nut and Bolt: Unscrew the nut from the screw, insert the screw into the opening, attached the nut to the bottom of the screw once the screw is fully inserted into the opening to lock the screw into place.

STEP 6

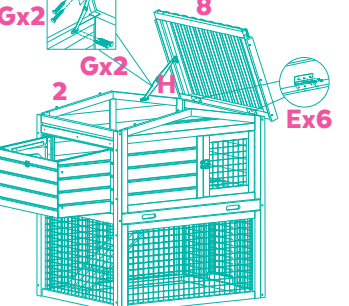

Attach the whole nesting box to Panel (1) using Nut and Bolt (B).

STEP 7

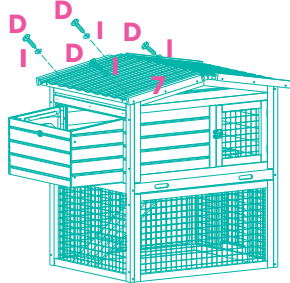

Insert the Floor (16), (17) and Partition (18) into the nesting box. Insert the roosting bar (15) into the house.

STEP 8

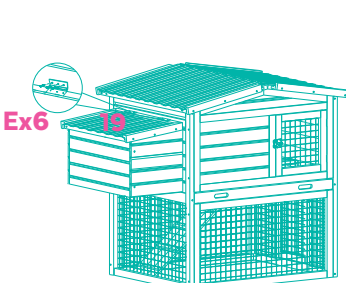

Assemble the Roof (8). Connect the hinged roof to Panel (2) using Screw (E). The hinge should be attached to the outside of panel. Connect Hinge (H) to roof and Panel (2) using Screw (G).

STEP 9

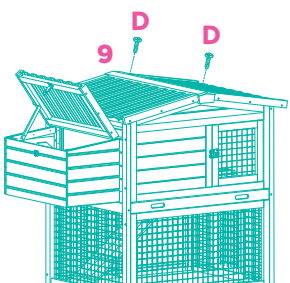

Attach the Left Roof (7) using Screw (D) and Washer (I).

STEP 10

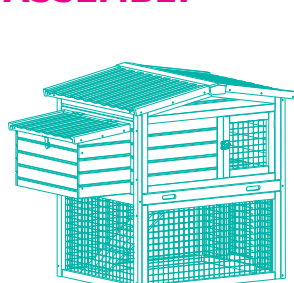

Attach the hinged Roof (19) on the nesting box using Screw (E).

STEP 11

Attach the Roof Ridge (9) using Screw (D).
