## SUMMARY OF FREQUENTLY ASKED QUESTIONS

Q: Is the vibration feature safe for my pet?
A: Although vibration is unpleasant, it is harmless to your pet. Electronic training equipment requires users to interact and train their pets to achieve the desired results.
Q: How old is my pet to use a dog training collar?
A: Your pet should be able to recognize some basic obedience commands, such as "sit" or "stay." Pets must be at least 6 months old before using a dog training collar.
Q: Once my pet has been trained and has obeyed my orders, does he still will continue to wear the transmitter?
A: Probably not, but you might strengthen training it using a receiver.
Q: Is the receiver waterproof?
A: Yes. The rubber cover must be placed in the correct position and the dog must not be allowed to swim with it.

Q: How long can I keep vibrating my pet?
A: You press the vibration button, the maximum vibration time is 10 seconds, after that, it can't vibrate again, unless you press the button again.
Q: How long do I give pet training classes?
A: The training sessions should be positive and short, about 10-15 minutes at a time.
Q: Does the product have after-sale service?
A: Our product has after-sale service. As long as it is a quality problem which does not belong to damage by human action or is not caused by the wrong operation, we can offer you 1 year guarantee.

## WARM TIPS

Please read and follow the instructions in this manual.It is important to wear the collar correctly. When a pet wearing a collar for too long or too tight can cause skin damage.Too long or too tight wearing may cause stress, which can lead to skin damage.This is often mistaken for a burn.
1. Do not tie the device too tightly around the dog's neck.
2. Do not tie your belt to the collar.
3. Do not leave the device on the dog for more than 12 hours.
4. Replace the collar on your pet's neck every 1 or 2 hours.

## FCC COMPLIANCE

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Note**: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and

on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.
-Caution: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.
