Components

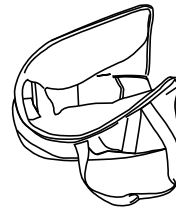

Cup Holder (1)

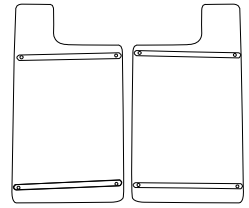

Back Seat Strap (1)

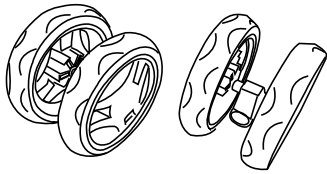

Carrier (1)

Support Boards (2)

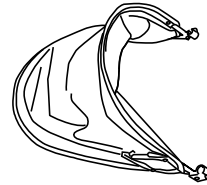

Front wheels (2)

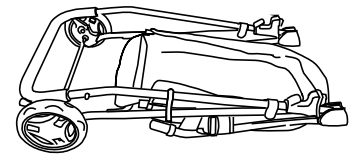

Pad (1)

Visor (1)

Frame with Assembled Back Wheels and Cargo Basket (1)

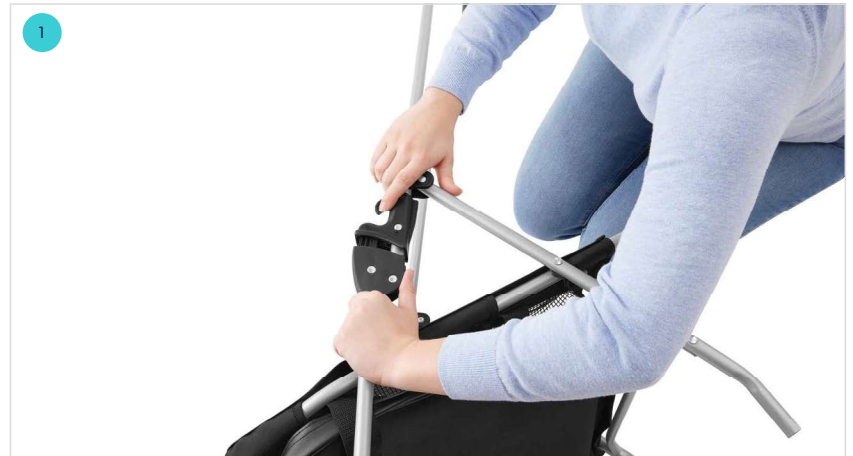

Assembly

DO NOT SKIP THIS STEP

Lay the parts out flat on the ground so that you have a clear visual of everything that is included.

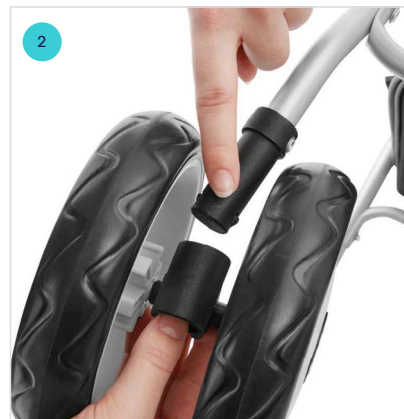

Step 1 - Unfold

Unfold the pet stroller and snap it into place. Make sure that the black locks on the sides are locked into place.

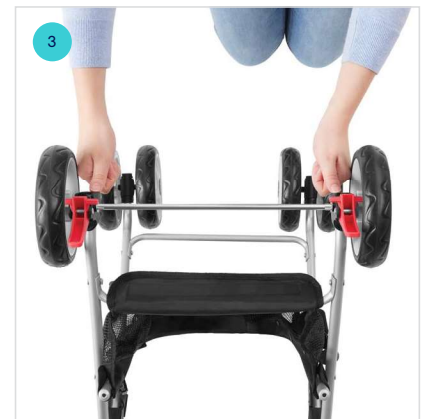

Step 2 - Front Wheels

Lay the stroller flat on the ground and insert the front wheels into the legs until they snap into place. (Pro tip: give it a good tug to make sure it's secured.)

Step 3 - Back Wheels

Lock the rear wheels by simply pushing down the brake levers on either side.

Step 4 - Carrier Assembly

Slide both support boards (they look like two flat, grey squares) into the open slots on the carrier. Make sure the support bars face outside of the carrier. This way you know it's been inserted correctly. Fold the fabric over and press the hook-and-loop fasteners together, then zip to close. Place the pad into the center of the carrier.

Step 5 - Mounting the Carrier

Zip the carrier shut and place it on top of the cargo basket. You should see a buckle on either side: use them to secure the carrier in place. Use the provided straps to tighten over the stroller frame if necessary.

Attachments

Cup Holder

Attach the cup holder to your preferred side of the handle.

Visor

Now it's time to attach the visor. Just snap the clamps onto the frame at the desired height.

Car Seat Mode

If you'd like to switch the stroller to car seat mode, here's what you do:

- Detach the carrier from the stroller and place it sideways on the car seat. Next, you'll want to feed the seatbelt through the side loops of the carrier — they're located underneath the side buckle.
- Now, attach the back seat strap to the carrier and over the headrest for extra support (this strap may also be used as a shoulder strap when used as a portable carrier).

WARNING

- Not intended for children.
- NEVER leave pet unattended. ALWAYS keep pet in view while in the stroller.
- Adult assembly required. Take care when unpacking and assembling; contains small parts and some items with sharp edges.
- To prevent a possible choking hazard, remove and discard packing material before using this product.
- DO NOT carry or roll stroller on stairs or escalators with pet inside.
- DO NOT hang heavy items on handlebar as this can cause the stroller to tip.
- Be sure stroller is fully assembled and locked in unfolded position before using.
- ALWAYS exercise care when going over curbs or steps, and never use stroller for anything other than transporting your pet.
- Push stroller at a normal walking pace only; faster strolling can cause a loss of control and injury to the pet.
- DO NOT place hot liquids in cup holder.
- DO NOT use stroller if any parts are missing or broken.
- DO NOT carry additional pets, goods, or accessories in or on this stroller except as advised in these instructions.
- DO NOT exceed the listed weight restriction.

- Care must be taken when folding or unfolding stroller to prevent finger injury to you or your pet in hinge areas.
- Make sure pet is not in the seat or near the stroller when folding or unfolding.
- NEVER leave stroller on a hill or incline, even with brakes set. Stroller may tip, injuring the pet.
- To avoid accidental rolling, ALWAYS set brakes when stroller is not being pushed.
- DO NOT suspend strings or toys from the canopy to avoid strangulation.
- When making adjustments to the stroller, ALWAYS ensure that all parts of the pet's body are clear of any moving parts of the stroller.

To fold the stroller:

1. Remove the carrier from the stroller
2. Pull up both side locks
3. Fold the pet stroller
4. Secure the side safety lock
