Thank you for choosing our company's products, to ensure its service life, please read this instruction manual carefully.

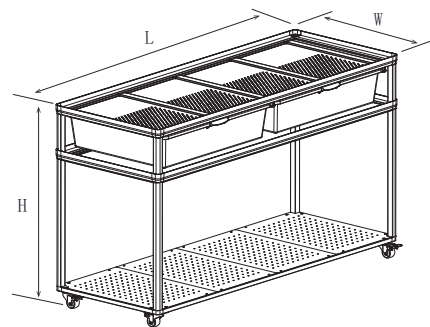

1. Product Overview

IN series products are made of high-quality aluminum alloy frame and food-grade PP plastic material, beautiful and practical. We have innovated and upgraded after absorbing user suggestions, and added a detachable slot design to achieve free switching of large and small breeding boxes, pull smoothly; it can be used with ReptiZoo glass terrarium and other various terrariums, including reptile pet glass terrarium, fish aquarium, and wooden vivarium. There is an overhead storage space at the bottom, and the laminate is stable, which can store related feeding supplies; Taking into account the various needs of reptile pet breeding, the free switching function of large and small breeding boxes and the well-ventilated design are suitable for the use of ground-dwelling geckos and larval corn snakes;
