

Mazuri® Timothy-Based Rabbit Diet

(Available at www.mazuri.com or through a Mazuri® retailer)

Formula Code - 530Q / 5M15

Description

Mazuri® Timothy-Based Rabbit Diet is a balanced diet designed for all life stages of rabbits.

Features and Benefits

- **Timothy-based** - Lower protein and calcium than alfalfa based formulations.
- **Contains a high level of fiber to maintain digestive tract health.**
- **Nutritionally complete** - Not necessary to supplement with vitamins or minerals.
- **Contains probiotics** - To support gastrointestinal health.
- **Contains natural vitamin E.**
- **Contains flaxseed** - Source of omega-3 fatty acids.
- **Contains Yucca shidigera** - A natural flavoring agent.

Product Form

Pelleted feed: 1/8" x 3/8".

- 5M15 - 5 lb. resealable poly bag
- 530Q - 25 lb. net weight paper sack

Guaranteed Analysis

Crude protein not less than	14.0%	Calcium not less than	0.65%
Crude fat not less than	1.5%	Calcium not more than	1.15%
Crude fiber not less than	18.0%	Phosphorous not less than	0.50%
Crude fiber not more than	22.0%	Salt not less than	0.75%
Moisture not more than	12.0%	Salt not more than	1.25%
Ash not more than	9.0%	Sodium not more than	0.50%

Vitamin A not less than.....8,000 IU/lb

Vitamin E not less than.....30 IU/lb

Ingredients

Ground Timothy hay, ground soybean hulls, wheat middlings, dehulled soybean meal, ground oat hulls, cane molasses, dried beet pulp, soybean oil, dicalcium phosphate, salt, choline chloride, calcium lignin sulfonate (pelleting agent), flaxseed, calcium carbonate, dl-methionine, brewers dried yeast, dried yucca shidigera extract, vitamin A acetate, folic acid, pyridoxine hydrochloride, cholecalciferol (vitamin D₃), d-alpha tocopheryl acetate (source vitamin E), l-ascorbyl-2-polyphosphate (stabilized vitamin C), calcium pantothenate, riboflavin, niacin, magnesium oxide, vitamin B₁₂ supplement, dried Streptococcus faecium fermentation product, dried Lactobacillus acidophilus fermentation product, yeast culture, manganous oxide, dried Aspergillus niger fermentation extract, zinc oxide, ferrous carbonate, dried Trichoderma viride fermentation extract, copper sulfate, zinc sulfate, dried Bacillus subtilis fermentation product, calcium iodate, yeast extract, cobalt carbonate, sodium selenite.

Feeding Directions

- Provide Mazuri® Timothy-Based Rabbit Diet free-choice. Ensure that food is replaced frequently and provided in appropriate feeders.
- If desired, additional food items should be offered at 10% of the diet or less (as is basis). The choice of supplementation will vary with life stage and animal preference. Mature or elderly rabbits may benefit from food items with lower calcium or high oxalate levels to reduce calcium absorption (e.g., celery, broccoli, spinach). Growing animals, gestating and lactating may benefit from food items with higher calcium and protein (e.g., alfalfa hay). Fruit supplementation should be minimal to avoid excess dietary sugar.
- See Table (following page) for dietary composition when feeding different levels and types of hay.
- Provide plenty of fresh clean water at all times.

Mazuri® Timothy-Based Rabbit Diet

Approximate Nutrient Composition¹

NUTRIENTS

Protein, %	14
Arginine, %.....	0.83
Cystine, %.....	0.22

Vitamin D ₃ , IU/kg.....	1,065
Vitamin E, IU/kg.....	75
Vitamin K (as menadione), ppm.....	0.02

Storage Conditions

For best results, ensure polybag seal is fully closed during storage, or store contents of open paper sack in container with sealing lid. Store in a cool (75°F or colder), dry (approximately 50% RH) location. Freezing will not harm the diet and may extend freshness. Adhere to the "Best if used by" date or use within 1 year of bag manufacturing.

¹ Based on the latest ingredient analysis information. Since nutrient composition of ingredients varies, analyses will vary accordingly.

² Calculated using Atwater factors – 4 kcal/g protein, 9 kcal/g fat, 4 kcal/g carbohydrate.
